November 13, 2022

To whom it may concern,

I am a PA graduating from CUNY York College in January 2023 with a strong interest in developing my career in Internal Medicine at New York-Presbyterian/Queens Hospital.

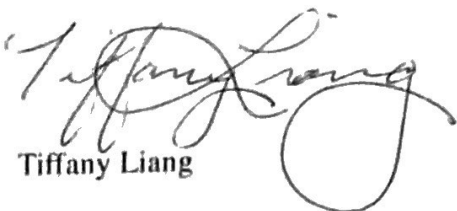

As you will see from my resume, my last year has been spent rotating in a variety of specialties that diversified my clinical training. I completed my internal medicine rotation at Northshore University Hospital and found the experience to be invaluable in patient care and collaboration across multiple departments.

Throughout my clinical training, I realized my interests and skills best lie in a speciality where I can interact with other departments to holistically take care of the patient. For these reasons, I am dedicated towards pursuing a career in Internal Medicine. My past employment history includes working as an outpatient clinical care medical assistant in Flushing, NY. I believe my knowledge of the community, proficiency in spoken Mandarin, ability to think critically under stressful conditions, and dedication towards high-quality patient care makes me a strong candidate for this position and servicing the patient demographic at NYPQ Hospital.

I look forward to the opportunity of speaking with you soon. Should you have any questions, please do not hesitate to contact me via email or phone as listed above.

Thank you in advance for your time and consideration.

Sincerely,

  
Tiffany Liang
